

Sept. 30, 2025

Note: to Town of Ulysses Board

From: Scott Sutcliffe

Re: Petition to lower the speed limit on Waterburg Rd.

Kathleen Overbaugh and I circulated the attached documents to all Waterburg Rd. residents, starting where Waterburg Rd. connects with Podunk Rd and ending at the bridge in Waterburg. We were able to visit with every landowner except two who have been out of town. Attached are the signed petitions – 28 signatures.

Without exception, all landowners enthusiastically signed the petition. We've all experienced a constant increase in vehicular speeds, many in excess of 55-60 mph and some much faster.

We'd appreciate your consideration of our requests and recommend the Tompkins County Highway Superintendent do the same, then make a recommendation to the DOT to change the speed limit.

Thanks a lot for your consideration.

To the Town of Ulysses

September 2025

We, the undersigned, petition the Board of the Town of Ulysses to lower the speed limit on Waterburg Road, from the intersection with Podunk Road to the Indian Fort Road intersection. This rural residential road is a favorite of scores of walkers, joggers, and bicyclists every day who are forced to use the narrow, sometimes non-existent shoulders while motorists regularly speed by at 55 miles an hour or more. There are limited sight lines in some areas and collisions with deer are not uncommon, once resulting in a neighbor's death.

We believe the road should be posted "Neighborhood Speed Limit 45 miles per hour" as a public safety measure.
