NEXT STEPS:

Ms. Geary shared a presentation of all the work that was done:

- Single table of contents at the beginning of the doc rather than each chapter
- Layout consistency
- Redundancies removed for goals, objectives, policies
- Formatting
- Public input incorporated
- Errors and corrections addressed

Timeline update:

- 10/24- committee comments to Highland
- 10/31- new draft distributed
- 11/5- CPSC approval of draft; possible referral to Town Board
- 11/12- Town Board review
- 11/14- MRB review of Town Board changes
- 11/26- TB finalizes draft and schedules public hearing
- 12/16- Town Board holds public hearing before adoption

The group shared feedback on the current draft, including the following:

- Intro chapter and its style (whether it should be more like an executive summary)
- climate resilience & sustainability, and acknowledgement of grant
 - why say in line with state goals- should be town goals
 - decrease in population
 - ESRI data given
 - Employment
- stormwater plan
- land use table
- how “income” is defined
- best practices for comp plans
- the layout
- housing
- lack of time for proper review of the document
- process for adding additional feedback
- that the document should reflect what the public wants rather than what committee members want
- who the target audience is
- whether there’s been enough public input

Discussion on moving forward:

The group decided to streamline the process so that each person did not need review the entire document as it is large. Each person was assigned a few chapters to comment on.

APPROVAL OF PAST MINUTES (October 8, 2025)

Ms. Weaver moved to approve the minutes from Oct. 8. This was seconded by Ms. Olson.

Ms. Meador requested to clarify in the minutes that no members *of the public* were in attendance. Ms. Weaver and Ms. Olson approved this change and the group voted unanimously.

ADJOURN:

Mr. Klein moved to adjourn at 7:04pm. This was seconded by Ms. Olson and passed unanimously.

Respectfully submitted by Carissa Parlato, Town Clerk, 11/4/25
